Ultimate Carry-On

Featuring:
**The Storm Case® iM2500
and New Utility Organizer**

Air travel has never been easy, but today's ATA requirements can strain the limits of even the most seasoned traveler—particularly when it comes to carry-on luggage.

Once again, the company that revolutionized the protective case industry more than half a century ago has risen to the challenge with the new iM2500 Utility Organizer. On its own, the ATA-approved iM2500 is the perfect travel companion: an unbreakable, water-tight carry-on case that can transport clothes, cameras and laptops safely and securely - no matter your destination. However, when you add the new Utility Organizer, the iM2500 is transformed from merely a great protective case into the ultimate carry-on luggage solution.

To take the pain out of air travel, we designed this organizer to comply with all ATA requirements—including strict 3-1-1 regulations. Multiple pockets keep papers, 3-1-1 regulated liquids, plane tickets and small electronics like MP3 players and cameras safe and separate.

The Utility Organizer fits neatly into the iM2500's lid—allowing the case to close securely, encasing its contents in an impenetrable, indestructible shell. Slide a new Utility Organizer into the iM2500, and you'll have the ultimate carry-on solution: unmatched protection for your gear with unparalleled convenience for you.

Press & Pull latches hold fast even under duress, yet open effortlessly.

Permanently attached Vortex™ valve automatically adjusts air pressure without letting in water.

Add the security of your own padlock to unbreakable, molded-in hasps.

The unique hinges with feet hold fast under impact and create a flat surface for upright stability.

Double-layered, soft-grip handles combine strength with long lasting comfort.

The iM2500 meets airline carry-on regulations by fitting under seats and overhead compartments.

Storm Case's Storm Trak™ series boasts uniquely rugged, yet lightweight, telescoping handles that lock in place plus rugged in-line wheels for ease of transport (available in a wide range of sizes).

Storm Cases are designed to transport and protect your valuables even under the most adverse conditions.

Keep all of your important files organized and secure in this expanding folder compartment. Files, folders, brochures, letters, hotel reservations, airline tickets can all be easily stored in this area, allowing for faster access to all of your most important information.

FOLDER COMPARTMENTS

Carry your digital music on board with you to use during those long flights. The mesh compartment ensures stability and security for your small, sensitive equipment. Storing your earphones and other components in the same compartment allows for easy on the spot access.

MP3 HOLDER

Keep your business cards close at hand in this convenient mesh pocket.

BUSINESS CARD HOLDER

One of the hardest things to store in your carry-on is that quart sized bag with your 3 oz (or smaller) liquids. This convenient pouch allows you to easily store that bag in it's own zippered, nylon compartment, ensuring that you don't have small bottles of liquids rolling around your suitcase. And pulling them out in the security line is a breeze.

ZIPPERED NYLON COMPARTMENT FOR 3-1-1 COMPLIANCE

The convenient CD holder allows you to store all of those miscellaneous CDs with materials, back-up information (in case of emergency) and/or presentations in a small, secure, closed compartment. Now you don't have to worry that if your laptop gets jarred in the overhead compartment, then you'll wind up without your important materials.

CD HOLDER

Today, digital cameras have become a useful business tool, allowing you to snap pictures of exhibits, products and other important pieces of information. Plus, they are the best way to chronicle your trip from start to finish - especially when you're off to a new location. The separate, mesh compartment allows for easy storage of your digital camera, providing security and stability during those rough flights.
