Defy the Elements®

NEW!

COYOTE TAN

Storm Case "Coyote Tan" offers a tough-shell case that protects sensitive and expensive equipment against water, dust, sand and extreme temperatures while blending into the harsh desert type environments. Each case has easy-to-open Press & Pull Latches, Vortex™ auto pressure release valve, soft-grip handles with rigid core and lock-ready hasps that all combine to outperform the competition. Since we got our training in the military, we just plain make them tougher. So act now to order Coyote Tan. Nothing beats the power of The Storm. Made in the USA. Guaranteed for life.
